

The Dust Magnet™ dry dust mopping system is the simple and modern way to clean a floor. It's acceptance at major hospitals and institutions has been swift and successful. Schools, nursing homes, hospitals, health care and other facilities are seeing the advantage of the Dust Magnet dry mopping system. The standard Dust Magnet floor tool and shaft has single or multiple sheets that easily attach to the single frame. The telescopic handle extends to 79 inches (201 cm) making it ideal for all hard to reach and overhead areas. The entire set up weighs less than 2 lb (0.91 kg)!

How it Works

When you use a Dust Magnet sheet on any surface to be cleaned it builds up a slight static electric charge. Dust is attracted to the thick fiber pile much like a magnet. The more you use it, the better it works! Because the dirt clings to the Dust Magnet sheet, it does not come off when cleaning overhead, making this product very versatile. Dust Magnet sheets holds more dirt and cleans more surface area than any other disposable, dry dust mopping system.

The Modern Way to Dust Mop a Floor

- *No Oil Or Chemical Based Treatments Needed* – Other mopping systems need oil or chemical treatments to get the job done. This can result in a film residue left on floors and surfaces. It can also be a potential slip hazard.
- *Eliminates Cross Contamination* – Because it is disposable, concerns about cross contamination in health care facilities are removed.
- *No Laundry Expenses* – The Dust Magnet dry mopping system uses environmentally friendly disposable dusting sheets. When finished dusting just throw the sheets in the trash.
- *No Need for Multiple Systems* – Traditional cleaning means a separate set of rags or dust cloths for specific applications. A single Dust Magnet sheet can be used for high dusting, floors, walls and all flat surfaces.
- *Unightly Storage is Eliminated* – Dust Magnet dry mopping system's modern way to clean a floor eliminates odorous and unsightly storage areas common with re-usable mop systems.

Dust Magnet™

Dry Dust Mopping Systems

- Dry dusting system uses disposable dusting sheets
- Super lightweight aluminum system
- Simple static electricity attracts dust and holds it
- 23, 46 and 59 inch wide cleaning path options
- Sheets come in convenient pre-cut boxes of 200, or a continuous roll of 100 sheets

Clarke®

Trusted. Reliable. Efficient.

PART NUMBER	Description
Dust Magnet™	
56 649 232	200 23 in (58 cm) Pre-Cut Sheets
56 649 231	100 Sheet Roll (perforated)
Tools and Accessories	
56 649 258	23 in (58 cm) Deluxe Aluminum Mop Holder
56 649 268	46 in (117 cm) Deluxe Aluminum Mop Holder (Wide area tool)
56 649 269	59 in (150 cm) Deluxe Aluminum Mop Holder (Extra-wide area tool)
56 649 263	39 in (99 cm) to 70 in (178 cm) Deluxe Aluminum Adjustable Shaft
56 649 267	Adjustable "Cushion Grip" Shaft — If you thought our standard shaft was comfortable then try the cushion grip. This feature will set a new industry ergonomic standard for both damp and dust mopping. More comfortable than a standard wood handle mop. If you have to mop, why not be as comfortable as possible?
56 649 265	59 in (150 cm) Non-adjustable aluminum shaft
56 649 281	Ergo Bend - Angle Adapter
56 649 260	Replaceable Foam Pads for 23 in (58 cm) Tool
Start-Up Kit for Combo Mop/ Dust Magnet™	
56 649 241	Dust Magnet™ Start-Up Kit includes: 1–23 inch Aluminum Tool, 1–Adjustable Shaft and 25–Dust Magnet™ Sheets

A smaller 23 inch Mop Holder is available. Its smaller size is perfect for use in tight areas.

Dust Magnet™ is available in 23 inch pre-cut sheets or a perforated roll of 100 sheets.

Ergo Bend – This ingenious adapter makes cleaning overhead areas a snap. Imagine dusting the top of a file cabinet or credenza without standing on a chair or step ladder. Simply snap ergo bend and position the mop on the surface. Safe and easy!

The Dust Magnet™ is perfect for:

- Offices
- Schools
- Hotels and Motels
- Healthcare Centers
- Retail Outlets
- Restaurants
